

Company Name

Short description

AC Language School

<https://www.aclanguageschool.com/>

AC Language School online programs provide holistic resources and ongoing support for students and teachers so that your school district has a current and effective curriculum, both now and in the future. We combine proven curriculum, innovative education technology, and supplemental services such as online teacher or parent training and real-time student progress reports to create a virtual teaching platform that offers a personalized education like never before. Our online programs empower students to discover their own academic paths and allow the education process to take place in class, at home, and anywhere in between. ACLS provides a unique online learning experience based on Accelerated Learning, Experiential Based Learning, and Performance Based Assessment.

AcraDyne
