

It's time to Reboot Your Skills!

**Learn to build software robots
for FREE in just 4 weeks**

UiPath is offering an online learning program to help you develop new software automation skills and build your first software robot. Robotic Process Automation (RPA) is one of the hottest technology categories and the #3 fastest growing job skill according to Upwork's 2019 Skills Index.

A free online learning program to develop new automation skills and get ahead in your career.

Automation is not a trendy buzzword. It's now a critical technology that's being implemented across organizations at unprecedented rates.

Work is changing—and having software automation skills is no longer optional. At UiPath, we've helped hundreds of thousands of people build these skills through our online Academy.

Now, we're introducing the Reboot Your Skills learning program—designed to help people who are interested in learning the fundamentals of automation. It's a community-focused,

hands-on program that'll take you on a journey to gain marketable, on-the-job skills.

Over 4 weeks—in less than 16 hours total—you'll learn alongside a community of professionals from around the world, complete practical exercises, get access to RPA experts, and build your own software robot.

Gartner predicts that 25% of digital workers will use virtual robots by 2021.

Will you be one of them?

Contact our Reboot Your Skills team at learning@uipath.com

Reboot Your Skills begins on **April 20, 2020** and runs for 4 weeks.

How it works

At the start of each week, you'll receive an email with an overview of the week's courses and activities. Complete them at any time during the week.

What to expect

- Engage with interactive content—videos, webinars, infographics, practice exercises, and quizzes
- Interact with your peers in our discussion forums
- Get help from UiPath experts during open office hours

What you'll learn

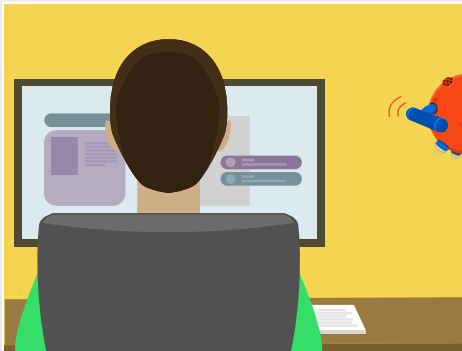

- An overview of the RPA industry and how it's changing the way we work
- Real examples of automation use cases
- About UiPath tools and how you can use them
- How automation can help your work and your life

What's included in the program

- A tailored learning plan with on-demand UiPath Academy courses and activities
- Free download of UiPath software
- 24/7 access to a community of people like you on our forums and on Slack
- Live conversations and office hours with RPA experts
- A certificate of completion

WEEK 04

Build your virtual
assistant and graduate

Common questions about Reboot Your Skills

▶ Who should enroll in Reboot Your Skills?

Reboot Your Skills is open to anyone who wants to learn automation skills. It's for people across industries, functions, and geographies. That said, it's not right for everyone. It's meant for people who are hungry, curious, and committed to learning new skills that will enhance their careers.

▶ What will I get out of the program?

You'll learn what robotic process automation (RPA) is. You'll get an understanding of a variety of RPA use cases and complete practical exercises to develop your skills. By the end of the program, you'll be able to build software robots that can automate your work and your life. And, you'll have taken the foundational content to start preparing you for **UiPath Certification**—the industry standard for RPA professional certification.

▶ What's the time commitment?

Reboot Your Skills is a flexible program, designed to fit into the schedule of working professionals. All it takes is 3-4 hours a week over the course of 4 weeks. Whether you're committed to a super-busy, high-profile day job or you have a little extra time on your hands right now, we've made it easy to fit into your schedule.

▶ Can't I just take UiPath Academy courses on my own?

Reboot Your Skills as a 4-week program especially for professionals who want a structured weekly plan for learning the fundamentals of automation. You'll learn alongside professionals around the globe who are on the same learning journey with you, meaning you can jump into Slack or the forum to get help with each week's courses and activities. And, through our office hours and webinars, you'll be able to access a pool of RPA experts live each week.

▶ I live in [this particular] time zone. Can I still participate?

Reboot Your Skills leverages on-demand UiPath Academy courses, so you can complete each week's assigned course content at any time of the day. We'll offer office hours in multiple time zones, and you'll be able to access our global community of learners in our forum and on Slack 24 hours a day, 7 days a week.

▶ How much does it cost?

We're offering Reboot Your Skills at no cost. We believe in making automation accessible to everyone because they're essential to succeed in the future of work.
